FULL STACK DEVELOPER | BACKEND DEVELOPER | ASSOCIATE SOFTWARE ENGINEER

Full Stack Developer with 8 months of hands-on experience building web applications using PERN and MERN stacks. Currently working as a Full Stack Developer Intern at Euron.one, developing secure authentication systems, REST APIs, database-driven applications, and responsive user interfaces using Next.js, React.js, Node.js, TypeScript, PostgreSQL, MySQL, and MongoDB. Previously spent 7 years progressing from Information Executive to Senior Manager in Data Operations, bringing strong analytical, leadership, and problem-solving skills to software engineering environments. Seeking Full Stack Developer, Backend Developer, or Associate Software Engineer roles.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript
Frontend:	React.js, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS, EJS, Responsive Design
Backend:	Node.js, Express.js, REST APIs, MVC Architecture
Databases:	PostgreSQL (Supabase), MySQL, MongoDB
DevOps & Tools:	Docker, Git, GitHub, Postman, VS Code, Railway, Render, Vercel, AWS S3
Security:	JWT Authentication, Session Management, Authorization, RBAC

TECHNICAL EXPERIENCE

Full Stack Developer Intern

29 Nov 2025 - Present

Euron.one

- Developing full-stack web applications using Next.js, React.js, Node.js, Express.js, TypeScript, PostgreSQL, MySQL, and MongoDB.
- Building secure authentication and authorization systems, scalable REST APIs, and database-driven application workflows.
- Developing responsive user interfaces and integrating frontend applications with backend services.
- Working with Git, GitHub, Docker, PostgreSQL, AWS S3 and modern web development practices in Agile environments.

TECHNICAL PROJECTS

MediTrack – Healthcare Management System (Internship Project)

[Live Demo](#) | [GitHub](#) | [Demo Video](#)

Technology Used: Next.js, TypeScript, Node.js, Express.js, PostgreSQL, Vercel, AWS S3

- Developed a full stack healthcare platform supporting Patients, Doctors, and Admins with secure JWT authentication and Role-Based Access Control (RBAC).
- Built an end-to-end appointment management system with booking, approval, cancellation, rescheduling, and automated email notifications.
- Implemented medical record management with secure file uploads to AWS S3, controlled file access, and audit logging for critical user actions.
- Integrated real-time messaging between patients and doctors using Socket.IO, along with responsive dashboards and profile management.
- Deployed the application using Vercel (Frontend), Render (Backend), and Supabase (PostgreSQL), ensuring a production ready cloud deployment.

SkillShare – Community Learning Platform (Internship Project)

[Live Demo](#) | [GitHub](#) | [Demo Video](#)

Technology Used: React.js, Tailwind CSS, Node.js, Express.js, MySQL, Docker, Railway

- Built and deployed a full-stack learning platform enabling users to create, manage, and consume structured educational content.
- Implemented JWT authentication, password hashing, input validation and REST APIs.
- Containerized the application using Docker and deployed using Railway and Vercel.
- Designed for sub-second response times on core workflows while aligning with WCAG 2.1 AA accessibility standards.

IdeaSpark – Brainstorming Board (Internship Project)

[Live Demo](#) | [GitHub](#) | [Demo Video](#)

Technology Used: React.js, Tailwind CSS, Node.js, Express.js, PostgreSQL (Supabase), Vercel

- Developed a collaborative brainstorming platform enabling users to create, organize, and manage idea boards dynamically.
- Implemented JWT authentication, REST APIs, and PostgreSQL-backed data management.
- Built responsive user interfaces and optimized data retrieval for improved user experience.

Blogifier – Full Stack Blog Platform (Personal Project)

[Live Demo](#) | [GitHub](#) | [Demo Video](#)

Technology Used: JavaScript, HTML5, CSS3, Bootstrap, Node.js, Express.js, PostgreSQL (Supabase), Render, EJS

- Built a full-stack blogging platform enabling content management, secure user sessions, and customized pagination streams.

NON-TECHNICAL EXPERIENCE

Senior Manager - Data Operations

1 Jun 2018 - 30 May 2025

Tracxn Technologies Limited (Bengaluru, India)

Progression: Information Executive → Manager → Senior Manager

- Led large-scale data operations workflows ensuring high metadata accuracy and structural consistency across global records.
- Managed cross-functional teams, established clear baseline metrics, and significantly increased operational delivery efficiency.
- Collaborated closely with internal engineering departments to help automate enterprise pipelines and optimize corporate internal tools.

EDUCATION & CERTIFICATIONS

Bachelor of Engineering (B.E.) - Information Science and Engineering

31 Jul 2016

New Horizon College of Engineering, Bengaluru

The Complete Web Developer - Hitesh Choudhary

Udemy Certification

Typescript For Beginners – Bharath Thippireddy

Udemy Certification
